Non-Magnetic MRI
Pediatric Equipment

18" Wide Wheelchair, With Fixed Footrest

Back View

Removable Full Length Padded Arms
Fixed Footrests

Specifications:

Seat to Floor Height: 19 1/4"
Seat Width: 18"
Overall Width: 26"
Overall Depth: 44" with footrest
Seat Depth: 16"
Overall Height: 35"
Back Height: 18"
Front Casters: 8" x 1" Solid
Rear Wheel: 24" Solid
Wheel Locks: Push to Lock
Weight: 44 lbs w/footrests
Weight Capacity: 250 lbs

Warranty:
5 Years on Frame and Crossbraces
1 Year on Moving Parts
90 Days on Soft Goods

This product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

Model	Description	Price
WC-1000	Burgundy Chair w/Footrests	\$1,972.00 ea.
WC-5000	Green Chair w/Footrests	\$2,112.00 ea.

Model	Designation	Description	Price
TA-5019		18" x 24"	\$860.00 ea.

MRI Furniture

The MRI furniture line is built completely with non-magnetic supplies. The furniture is made to go directly into the MR environment. Available now, Chair, Bariatric Chair, Sofa, End Table, and Coffee Table. Custom items may be available upon request. Choose from 4 fabric choices or you may supply your own fabric at NO extra charge (would need 3 yards of fabric for love seat and 1½ yards of fabric for chair).

16" Pediatric Chair (no arms)

Specifications:

16" W x 14" D
Cushion Width: 13"
Seat Height: 10"
Burgundy Naugahyde
Weight Capacity: 250 lbs
Warranty: 2 Years

Pediatric Table Solid Oak

Specifications:

25 1/2" W x 21" L
Table Height: 18"
Warranty: 2 Years

Purchase 1 Pediatric Table and 2 Pediatric Chairs SAVE \$50.00

Model	Designation	Description	Price
FR-1005		16" Pediatric Chair	\$212.00 ea.
FR-1006		Pediatric Table	\$324.00 ea.

Desktop / Portable Pulse Oximeter

The Nonin 8600FO Pulse Oximeter incorporates a Fiber Optic sensor, meeting the unique needs of MRI users for patient safety and image quality.

Benefit	Description
Safe-To-Use	Fiber optic sensors eliminate the possibility of RF burns in the MRI environment
Convenient	Non-magnetic pole mount system for easy access
Economical	Long-life internal rechargeable battery system and light-weight design
Customizable	pulse tone with variable pitch; audible and visual alarms for pulse rate & SpO2
Expandable	Optional 18 hour memory for software review of SpO2 and pulse rate
Flexible	Multiple interface & printing options
Pole Mount	Fits poles 5/8" to 1 1/2" Diameter. Poles sold separately below.

Warranty

3 years on pulse oximeter, 1 Year on internal battery,
90 Days on fiber optic cords and other components

Fiber Optic Sensors must be ordered separately, they are not included with the pulse oximeter.

Model	Designation	Description	Price
PO-1020		Pulse Oximeter	\$2,131.00 ea.
PO-1001		Infant Fiber Optic Sensor w/ 20' Cable	\$1,396.00 ea.
PO-1002		Infant Fiber Optic Sensor w/ 30' Cable	\$1,550.00 ea.
PO-1003		Adult Fiber Optic Sensor w/ 20' Cable	\$1,396.00 ea.
PO-1004		Adult Fiber Optic Sensor w/ 30' Cable	\$1,550.00 ea.
PO-1021		AC Adapter	\$181.69 ea.
PO-1010		nVision Software-Data Mgmt - Need Cable	\$537.00 ea.
PO-1023		Cable for nVision Software	\$181.69 ea.
PO-1024		Black Carrying Case for Pulse Oximeter	\$151.86 ea.
OX-1061		48" High Equipment Pole	\$364.00 ea.
OX-1062		60" High Equipment Pole	\$364.00 ea.

Optional Equipment Pole

Pole mount hardware included on OX-1061 & OX-1062

MRI Experience Guide and Children's Award Certificate

FREE at www.MRlequip.com/store/pc/viewPrd.asp?idproduct=801&idcategory=0

FREE!

Hey there little one, I'm MRI Teddy and I am going to tell you about your MRI scan. MRI means Magnetic Resonance Imaging and it helps the doctors to look inside you by taking pictures with the help of a giant magnet. And the best part is, it doesn't even hurt!

An MRI Technologist, which is a fancy name for the nice person who will be taking your pictures, will meet you and your parents at the clinic. The MRI Technologist will then explain to you and your parents how everything will work.

Before you can enter the MRI room you must be sure to remove anything metal from your pockets and clothes. Metal items can cause the pictures to not turn out right. These items might include jewelry, money, pens, paper clips, keys, beers and such. You don't have to worry, your items will be stored safely in a locker or given to your parents.

Your MRI Technologist will let your parents know what you should wear and to be sure that there are no metal buttons or zippers on your clothes. You may even bring in a CD of your favorite music to listen to, it will make the time go by much faster.

Next, the MRI Technologist will bring you and your parents into the MRI room. You will lie down on a bed by the opening of the machine and the MRI Technologist will give you some headphones that you can listen to your music with. They will also give you a button to use so you can talk to the MRI Technologist at any time.

When you are ready, the MRI Technologist will slide you into the MRI machine, your parents will be standing right by you. The picture taking will last around 15-30 minutes and will sound like a loud fast knocking noise.

It is very important that you do not move during the picture taking. If you move at all, such as talking, turning your head, wiggling or moving your headphones, the pictures will not turn out right and you will have to start all over.

If you want to learn more about how an MRI machine works, you can go to this website: <http://health.howstuffworks.com/mri.htm>

Congratulations!!!

MRI Non-Magnetic BabyPac with Integrated Alarms

BabyPac is specially designed to deliver ventilation to small, fragile lungs of patients ranging from neonates through pediatrics up to 20kg with precision and confidence. It has a sophisticated range of ventilation controls including CPAP, variable I:E ratio and variable oxygen concentration. The latter is particularly important in neonatal intensive care and transport since high oxygen concentrations over a prolonged period can be harmful. Baby Vent also incorporates a comprehensive range of alarms.

Model	Designation	Description	Price
VE-4005		MRI Non-Magnetic BabyPac	\$12,062 ea.

For Technical Specifications on our MRI Ventilators visit www.MRlequip.com or call **1.866.529.3526** to speak to our Customer Service representatives

NeoPulse Disposable Pulse Oximeter Wrap

Features:

- Made with unique, patented NeoFoam™
- Soft and ultra skin friendly
- Easily adjustable to fit any size
- Lightweight and comfortable
- Provides stable, secure attachment that won't slip
- Wicks away perspiration
- Latex and phthalate (DEHP) free
- 100 per case

Small	Large
3/4" x 3"	1" x 5"

Model	Designation	Description	Price
PO-1025		Small	\$119.11 ea.

Pure Hard Surface Disinfectant

Cleaning Wand & Pads Kit

Pure hard surface disinfectant and food contact sanitizer delivers broad spectrum power to eliminate dangerous germs and food borne pathogens in food processing, food preparation and public eating places.

Features:

- Fast kill times
- GRAS status as contact biocide
- Eliminates bacteria, viruses and fungi
- 24-Hour residual protection
- Odorless, no skin irritation, non-flammable
- No rinse required

Ideal for use in food processing, food preparation and hospitality

Cleaning Wand & Pads Kit

MT-4550 Cleaning Kit Includes:
1 wand with disposable pad attached
25 additional disposable pads
1 32 Oz Pure Hard Surface bottle

Model	Designation	Description	Price
MT-4550		MRI Cleaning Kit	\$111.19 ea.
MT-4551		Cleaning Wand with 1 Pad	\$93.16 ea.

MT-4508		Pure Disinfectant, 32oz Spray Bottle	\$10.63 ea.

Neonatal Noise Guards

A must have for premie and newborn patients, Neonatal Noise Guards protect these little one's sensitive ears in the MRI environment, and provide peace and quiet in the NICU. Neonatal Noise Guards reduce the surrounding environment noise level by at least 7db, with a reduction in sound pressure of more than 50%. Disposable.

Box includes 6 pairs

Model	Designation	Description	Price
RA-1016		Neonatal Guards	\$81.11 box

Infant Eyeshades

NeoShades provide superior protection to neonates during imaging procedures or while in the NICU or PICU. Ultra skin-friendly, NeoBond® hydrocolloid tab adhesive resists skin breakdown from moisture or heat. Also available with NeoFoam headstraps that keep shields in place and prevents slipping or head molding.

Features:

Superior UV light blocking.
Thicker, soft eye shield material with ocular pockets provide superior comfort and safety.

Model	Designation	Description	Price
PO-1030		NeoShades Infant Eyeshades, 50 Per Case	\$162.41 cs.

CT Breast Shield System

Studies have indicated that infants and children are as much as 10 times more susceptible to carcinogenesis from radiation than adults. Breast tissue exposed to radiation from CT procedures involving the chest or abdomen is an area of particular concern for young females. The CT Breast Shield System provides significant in-plane breast shielding (57%) for pediatric MDCT, without qualitative or quantitative changes in the CT image. The use of the system's offset foam base gives the shields additional substance and durability, making them easy to use. The use of the elevating foam also decreases the patient's exposure to scattered radiation.

The Shield - Scanner Table Protection

Protect your scanner table from fluid contamination with The Shield. This system incorporates a coated foam table pad and reinforced PVC side flaps. The patient rests comfortably on the table pad while the flaps shield the gaps in the table from fluid contamination. The convenience of this system can be adapted to any imaging modality including CT, MRI, Nuclear Medicine, Angio Suites and Cath Labs.

Benefits of The Shield:

- ScanCoat® table pad is fluid resistant and cleanable, creating a sanitary environment and increasing the life of the pad
- Reinforced PVC flaps direct fluids away from patient
- Slide groove technology allows for infinite adjustability of security straps
- Reinforced vinyl security straps will not tear, while maintaining the patients position

Model	Designation	Description	Price
MO-3010		Neonatal (Box of 10)	\$130.92 box

MRI Non-Magnetic Prism Glasses, Fitover Frames

Features:

Fits over Prescription Glasses.

Does not reverse the image so it is possible to see a mural or projection screen TV.

Prism angle remains fixed in either position so no viewing angle adjustment is required.

Free of any metal components and may be worn in all types of Diagnostic Imaging Scans.

Similar to wearing a conventional pair of glasses so the patient will easily adapt to wearing them.

Model	Designation	Description	Price
RA-2013		MRI Non-Magnetic Prism Glasses, Fit Over Frames	\$117.88 ea.

MRI Non-Magnetic Magnalarm Patient Panic Alarm

Features:

Allows patients to notify the technologist they need attention.

Allows claustrophobic patients to relax better.

Comes with complete installation kits.

Fits all MRI's.

Tested approved and available from GE.

Allows patients to feel more secure knowing they can alert the technologist if necessary.

This product is **exempt** from the essential requirements of the relevant European health, safety and environmental protection legislation.

Model	Designation	Description	Price
RA-3006		Dual Alarm Adaptor, USA 120/12V, International	\$84.05 ea.

Adapter May Be Different Than Shown

Pearltec Multipad Positioners

The MULTIPAD range of products from Pearltec are positioning cushions that can be used anywhere because their size can be changed by simply increasing the volume of air with the hand pump. MULTIPADS are used to position the patient individually and comfortably during CT and MR examinations. This results in less patient movement thereby minimizing motion artifacts.

As a guideline, once the red indicator line appears on the Multipad, the customer needs to re-order positioners.

Pearltec Positioners

The innovative patented Pearltec technology uses a combination of soft movable polystyrene pearls and inflatable air chambers to provide optimum fixation of the patient during MRI and CT studies in order to reduce motion artifacts.

Benefits:

Fewer repeated exams. The soft movable polystyrene pearls along with flexible air chambers let the Pearltec products adapt to the individual patient. This gives optimum fixation of the patient, minimizes motion artifacts, improves image quality and reduces the number of exam repetitions. This makes the workflow significantly more efficient.

Crania Positioner

The CRANIA and GeNUS products from Pearltec are available in both child and adult sizes and have been developed for head and knee examinations. The CRANIA was developed for head exams and functional MRI. The GeNUS was developed to aid in the orthopedic examinations of the knee.

Model	Description	Price
PO-4009	Adult Crania Positioner	\$2,460.00 ea.
PO-4010	Child Crania Positioner	\$2,460.00 ea.

This product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

The Hugger Complete Unit

The Hugger® positions small children quickly and correctly, reducing the need for repeat exposures. Child mobility has never been so easy. The Hugger® is designed to hug rather than confine. Achieves womb-like warmth and security. The Hugger® includes one each of the following: foam insert, Plexiglas™ base, head restraint, body wrap with arm straps and leg straps. The Child Hugger® is for infants 4 months to 3 years. For a complete list of replacement parts please refer online at www.MRlequip.com or call customer service.

Model	Designation	Description	Price
FO-2173		Child Size	\$529.00 ea.

Pediatric Immobilization

The pediatric immobilizer is less frightening than most pediatric positions. The child rests on a 6 1/2" W x 40" L wood board. Gentle, secure immobilization is ensured by Velcro® brand blanket and straps that attach to a hook located under the board. Octagonal bases at both ends of the board allow you to position and stabilize the child at any of the eight positions (each 45° apart) around the octagonal circumference. Open base ends accommodate taller children. Use for chest, abdomen, phelography and cystography, upper GI and barium studies, CT and MRI, or as a craniograph for skull and sinus studies. For a complete list of replacement parts please refer online at www.MRlequip.com or call customer service.

Complete Kit Contains:

- 1 Board
- 2 Octagons
- 1 Large U Shaped Cushion
- 1 Small U Shaped Cushion
- 1 L Shaped Cushion
- 1 Large Velcro Blanket
- 1 Small Velcro Blanket
- Straps for Head and Arms

With No Accessories Contains:
