Pearltec Multipad Positioners

The MULTIPAD range of products from Pearltec are positioning cushions that can be used anywhere because their size can be changed by simply increasing the volume of air with the hand pump. MULTIPADS are used to position the patient individually and comfortably during CT and MR examinations. This results in less patient movement thereby minimizing motion artifacts. The flexible MULTIPAD product family consisting of MULTIPAD Standard, MULTIPAD Plus and MULTIPAD Slim can be universally used, either alone or in combination during all examinations with head and extremity coils.

As a guideline, once the red indicator line appears on the Multipad, the customer needs to re-order positioners.

iN-Ear MRI Headphones

With a noise reduction rating of 29db, iN-Ear MRI Headphones are designed to protect patient ears while producing clear, consistent sound quality. The high-density-foam eartips fit securely in ears and attach easily to the included tubing, which can be used with or without the adjustable headband. MRIaudio's newly designed iN-Ear Headphones are the ultimate solution for providing MRI patients with music, communication, and hearing protection. Their low profile design allows them to fit into every head coil and disposable foam ear tips prevent the spread of infection.

iN-Ear Headphones are **MR Safe**
