# What can we do for you?

Upon initial contact we will customize a package based upon the procedures performed as well as the strength, weight capacity and brand of MR system(s) used. We will take into account specific product requests and determine the most cost effective solution to our customers needs. We present a quotation on a full custom package including freight, rather than a pre-packaged kit that is incomplete and contains items that may go unused. We specialize in custom non-ferrous products that may require additional time for production. We will provide the necessary lead time and discuss a final purchase order date that will allow for delivery before a grand opening or re-opening. Once a purchase order has been received, upon the customers request; we may hold all products to be delivered at one time or have it delivered as available. Products in stock at the time of order will be immediately tagged for that order and held until the release date. This eliminates the possibility of a stock item at order date becoming out of stock on the release date. We supply MSDS sheets on pertinent products for our customer's records. Two days before release date, we will contact our customer to verify they're ready for the delivery. If there is a delay in the facilities opening, we will hold the product until needed at no additional charge.

Above all else, we will take that extra step in providing our customers with knowledgeable advice, low prices, on-time delivery and excellent customer service. We recognize that each of these attributes are vital to a smooth transaction and a satisfied customer.

#### Before ordering, please read our company terms and policies on inside back cover.

#### Safety is our Business!

Our dedication to safety begins at 7:00 AM every day of the work week - it is our livelihood. All products in our warehouse are checked on entry and then re-checked on exit. Products drop shipped from our manufacturers directly to your door are brought in randomly and re-tested for safety verification. We continually work with all manufacturers to ensure safety and proper designation.

For more information on the ASTM Standard, visit www.ASTM.org and search for 2503-13. For more helpful information pertaining to MR Safety, you can visit www.MRI-Planning.com www.MRISafetv.com www.radiology.upmc.edu/MRsafety

#### The highly anticipated Standard Practice for Marking Medical Devices for Safety in the Magnetic Resonance Environment by American Society for Testing and Materials (ASTM) has arrived.

As recommended by ASTM Intl; the intent of this practice is to provide needed information about the safety of items in and near MR scanners using a compact and easily recognized set of symbols and terms. The terms MR safe and MR compatible as first defined in 1997 in the FDA draft guidance document, "A Primer on Medical Device Interactions with Magnetic Resonance Imaging Systems," have been used to describe the safety of devices in and near MR systems. However, there has been a great deal of confusion surrounding this terminology. An incorrect assumption is often made, and users often incorrectly assume that items labeled MR safe or MR compatible are safe or compatible for any MR environment. MR environments vary in terms of magnetic field strength and RF conditions. This new system eliminates much of that confusion.

#### Icon Designation

#### MR Safe MR

Any item that poses no known hazards in all MR environments.

# MR

Any item that has been demonstrated to pose no known hazards in a specified MR environment with specified conditions of use. Field conditions that define the specified MR environment include field strength, spatial gradient, dB/dt (time rate of change of the magnetic field), radio frequency (RF) fields, and specific absorption rate (SAR). Additional conditions, including specific configurations of the item, may be required.

#### MR Unsafe

MR Conditional

Any item that is known to pose hazards in all MR environments.

Products NOT marked with a designation have been tested under the past methods and are currently being re-evaluated under the new ASTM Standards. Products will be updated continually.

#### **CE** Certified

These products comply with the essential requirements of the relevant European health, safety and environmental protection legislation.

# Non-Ferromagnetic Items

See Page 43-44 for Non-Ferromagnetic **Detection Systems** 

#### Office Hours:

Monday thru Friday 7:00 am to 4:30 pm (CST)

#### Terms:

Our terms are NET 45 DAYS on all new and current accounts. C.O.D. if not current. Payments become due 45 days after the invoice date, if the order is complete or not. Shipments will be held if an account contains invoices over 45 days past due. The account will go on permanent C.O.D. when there is a history of past dues. Third party collection fees and legal fees must be paid in full before an account can be reopened.

#### Freight:

Freight will be prepaid and added to your invoice. Freight charges are part of your invoice and are due accordingly. Freight charges are not discountable.

#### **Proof Of Delivery:**

We will provide proof of delivery within 30 days of shipment upon request.

#### Claims For Damage Or Shortage:

Must be made within 48 hours of receiving. Shipping containers must be kept if shipment is damaged or short.

#### Shipments Arriving Via LTL Truck (Not UPS Or Fedex Ground):

The packages must be opened and inspected at time of delivery for any concealed damage.

#### **Prices:**

All prices are subject to change without notice. Prices reflect single unit cost, except where noted.

#### **Returns:**

No item will be accepted for return after 30 days from date of purchase. All returns must be labeled with a return authorization number which can be obtained from our customer service department. Claims for shortage, breakage or any other reason must be made within 48 hours of receipt. Shipping containers must be kept if shipment is damaged or short. All returns are subject up to a 35% restocking fee. The customer is responsible for all freight charges incurred. Custom Products are NOT Returnable.

#### **Cancellation Charges:**

Orders may be canceled without charge providing your request is received prior to shipment except custom orders. If the merchandise has been shipped there will be up to a 35% restocking fee, plus all freight charges incurred. Please get cancellation confirmation to avoid these charges.

#### Other Order Information:

We reserve the right to split shipments. We sell on first come first serve basis. Where available, substitutions will be shipped if the product ordered is not available or discontinued.

Now, at your fingertips, is a diverse line of Non-Ferrous and PVC products for your MRI environment. MRIequip.com was established to provide the highest quality MRI compatible equipment with price tags significantly lower than the current marketplace. In the past, it was a priority to clear the room of all ferrous materials that pose an immediate risk. Now, a majority of those items can be replaced, in extent saving time and creating a friendlier environment for both the patients and the providers. Beyond the standard items, such as wheelchairs, i.v. poles and stools, a whole new world of products has opened up. Ranging from sound systems to furniture, these products increase patient comfort while decreasing concerns for injury and liability.

At MRIequip.com, we are constantly researching new products and welcome any suggestions you might have. If you can't locate what you require, let us know. Our design teams are ready for their next challenge.

# Ferno MRI Gurney 400 lb Capacity

Model 30NM The "Standard" and the lightest lift-in cot in the industry. Ferno's Model 30 Multi-Level, Lift-in Cot served as the industry standard for many years and is still used by many ambulance companies and medical facilities. The Ferno Model 30 cot adjusts to six height levels, enabling patient transfer from most nursing home beds or hospital treatment tables. To operate the height adjustment mechanism, the EMTs must assume the patients weight prior to raising or lowering the cot-bed frame. Because the Model 30 must be lifted to be loaded into the vehicle, it can be used with ambulances that have various floor heights. The Model 30 cot will work well in station wagons, vans or modular ambulances. The telescoping head-end main frame section allows the Model 30 cot to be shortened for maneuverability around tight corners and spaces. The Model 30NM is the Non-Magnetic version for medical treatment areas where the cot must be non-magnetized.

# Ferno MRI Gurney 500 lb Capacity

Model 35ANM The lightest cot available with a 500 lb weight capacity. The Ferno Model 35ANM Mobile Transporter Multi-Level Roll-In Cot combines the benefits of a multi-level cot with the easy loading feature of a roll-in style cot. Designed for a variety of ambulance floor heights, the Mobile Transporter will work well with station wagons, vans or modular ambulances. EMTs no longer have to lift from the side to load the cot. One EMT is positioned at the foot of the cot, while the other EMT simply raises the undercarriage during loading. Eight height positions enable easy patient transfer from any couch, bed or treatment table. The Mobile Transporter should be rolled in a level position. The two inclined positions are designed as loading positions for either vans or modular ambulances. The Model 35ANM is the Non-Magnetic version for medical treatment areas where the cot must be non-magnetized.

# Friction Reducing Patient Transfer Sheet

Friction reducing patient transfer and re-positioning sheet designed to prevent disabling back injuries to healthcare workers.

#### Features:

Accessibility

Individually wrapped Z-Sliders fit comfortably in scrub pockets, making it easily accessible when you need it and enhances team compliance by eliminating the need to locate a transfer device.

#### Compliance

Z-Slider complies with OSHA recommendations and "No-Lift" state laws decreases physical strain to back, shoulders, neck and arms.

Single patient use reduces the potential for cross-contamination Convenient point-of-use holders for patient rooms, common areas and or in the O.R.

#### Restrictions

This item **CANNOT** be left under patients during an MRI or for long periods of time as it can cause damage and tissue breakdown and possibly some artifacts in some imaging modalities.

Model	Description	Price
TR-1200	Friction Reducing Patient Transfer Sheet	\$136.50 ea.

# Load Grips, with Rubberized Pre-Molded Handle

Set of 4-2" poly strap with rubberized pre-molded handle for a no-slip grip, choose red or black below.

The Load Grips assist the user while lifting by extending the handle a flexible and adjustable 13 inches. Designed primarily with backboards in mind, Load Grips make it easier to lift with the proper technique, relieving lower back pain. They also prevent scraping of the knuckles on the ground and minimize contact with the patient while carrying the board – this is extremely helpful when the backboard handles are difficult to access due to the size of the patient. The flexible and adjustable nature of Load Grips ease transporting patients through stairways and awkward or confined spaces. Try Load Grips with other heavy gear, like fire hoses or to extend a handle. **Features:** 

Use to lift backboards and other heavy and awkward gear.

Compatible with all backboards.

Quick and easy application.

Durable and long lasting with normal cleaning protocol.

2" poly strap with rubberized pre-molded handle for a no-slip grip.

## **MRI CORE DX Cart**

White Polyethylene MRI Core DX Lab Cart offers a MRI safe, non-ferrous, efficient way to safely sort, store, organize, lock and transport a wide variety of supplies. It has 3 full extension drawers, shelves and bulk storage features. Document and tool holder snaps on back. Constructed from tough, non-reactive polyethylene and ABS this lab cart glides smoothly on 4 heavy duty 3 inch non-marking rubber casters. The small footprint Core DX allows it to be stored easily out of the way. Push and Pull with comfortable built-in handles.

#### Features:

Economical I Polyethylene 3 full extensio	/4" W x 3 5/8" H x 15	nstruction	3 inch braking casters Bulk storage area Smooth handles cut into top 23" W x 33" H x 19" D 6 side shelves 58 pounds

# MRI Non-Magnetic Maui Lab Island

White Polyethylene MRI Maui Lab Island 2 Foot Lab Cart offers flexible storage. It is constructed from white, nonferrous, durable, resistant, high density polyethylene and is designed for those who need a large amount of storage and workspace many carts don't offer. The integrated locking mechanism can be locked with the use of a padlock (not included) that keeps the tambour door securely locked in place until the lock is disengaged allowing the door to roll up and into the cart. Inside the MRI Cayman features a generous amount of storage space with a built-in shelf that lets you keep the supplies that you use most closest to your reach. Even fully loaded, the MRI Cayman can be easily maneuvered by one person with the aid of its 3 inch casters. Also available in a standard version (with metal). 24 x 36 x 24 inches (width height depth); 73 pounds

PC-1474		Maui Lab Island	\$1,094.95 ea.

# MRI Locking Roll-Top Cart

A durable high density polyethylene frame made just for the harsh laboratory environment and easy-to-use roll top door make this cart a great choice. Smooth rolling tambour door features plastic slates to travel smooth up and down the tracks. Top is also HDPE for chemical resistance so it gives years of good looking service.

Casters provide easy walking speeds to help move around the laboratory. Reliable push-brakes secure cart when necessary. Built-in handle for easy moving. Lockable cart with disappearing roll top door. Six removable drawers for use and storage. Lockable- locking mechanism is made of brass. 11.5" L x 16.5" W x 35" H

# Supply Carts | MRI Room Accessories

# MRI Non-Magnetic Space-Saving Cart

White Polyethylene MRI Core SP Space Saving Lab Cart with Clear Door provides a large amount of extra storage and workspace in a small footprint. This all white cart carries almost three times its weight and the innovative sliding door provides access to your supplies in cramped rooms or tight hallways. The door locks in either the up or down position with an embedded security lock and comes with two keys. Keep supplies and other equipment in one of the three full-extension drawers or bulk storage area. Built in ergonomic handles make the Core SP easy to maneuver.

## MRI Non-Magnetic Extra Wide Lab Cart

The MRI Extra Wide Lab Cart provides 36 x 18 1/2 inches of extra-wide mobile bench top space. This cart gives you an easy to move bench top and storage area. Whether you are in a hospital, urgent care facility, physician's office or imaging safety center, professionalism and organization are key to your success. The MRI Extra Wide Lab Cart provides three oversized drawers and a protected bulk storage area with sliding see-through door, unless color option selected and sits atop 3 inch casters. Its easy mobility and professional appearance will create instant neatness in your MRI Lab or facility.

#### Features:

Factures

Nonferrous extra wide lab cart Economical White polyethylene and ABS 3 oversized drawers 2 keys included Clear PETG plastic viewing door Seamless one piece top Built in handles Large bulk storage area 3 inch casters, 2 braking

## MRI Access / Egress Organizer

Storage for personal gear or for entry or exit. Space for gloves, safety glasses, protective clothing and changing area supplies. Light, white, room-for-everything and built for maximum ease in and out of the lab. Hinged acrylic doors allow easy stocking and viewing of supplies. Fabricated design to hold lab gear and keep your clothes and personal items off the floor. Entire organizer is wall mountable and easy to install with built-in key holes, so you'll go from the office to the lab in no time. Features one shelf, four safety glass cubbies, 3 covered compartments, a glove box dispenser and three hooks. Mounting hardware NOT included.

# Ferromagnetic Detection System MRI Entry System

FerrAlert<sup>™</sup> HALO II - Ferromagnetic Detector complies with ACR and JCAHO standards to protect the magnet room against moderate to large size ferromagnetic projectiles. This product significantly helps to protect the investment in the magnet and to avoid a catastrophic accident. FerrAlert<sup>™</sup> HALO II ENTRY has been certified by Siemens Medical Solutions for installation and use inside the magnet room for both 1.5T and 3.0T MRI magnets. Plus System reduces alarm fatigue by sensing direction of personnel and accepts Ferromagnetic Incident Log Manager (F.I.L.M.)

#### **OPERATION:**

- The Green LED HALO array illuminated around the MRI entrance indicates that the detector is scanning and there are no ferromagnetic threats detected.
- A Yellow beacon light indicates that a threat is approaching the portal.
- The Red LED HALO array flashes the entire portal, indicating a major threat such as a ventilator or oxygen cylinder has approached the portal.
- The greater the threat, the further away the warning is activated.
- Ferrous objects not approaching the entrance to Zone IV do not trigger an audible warning.

#### SPECIFICATIONS:

- Dimensions: Height 83" (211 cm), Depth 2.25" (5.7 cm)
- Adjustable Width: 42" (107cm) to 52" (132cm) Inside; 47" (119cm) to 57" (145cm) Outside
- Complies with ES60601-1-8 International Standards for Medical Device Alarms
- Complies with IEC 60101-1:2005 Medical Device Specifications Requirements
- Medical Power Supply: 100 to 240 VAC, 47 to 63 HZ, 42 Watts
- Sensitivity: Adjustable
- Audio Alarm: In Portal
- Photoelectric Beam: Activates Alarm Function mode when moving object enters Portal

# The FerrAlert<sup>™</sup> Ferromagnetic Incident Log Manager

The FerrAlert Ferromagnetic Incident Log Manager (F.I.L.M.) provides an automatic data record of Ferromagnetic Objects entering the MRI Scanner Room.

#### Features:

Facilitates The Joint Commission compliance for Incident Logging Logs potential and actual ferromagnetic incidents Provides a visual record of the events leading up to the incident Provides a visual record of the actions after the incident All records of incidents are stored and date and time stamped Assists with Root Cause Analysis HIPAA compliant

FERRAlert HALO II Plus

## SuperWand

The SuperWand's exclusive 360° detection field provides uniform sensitivity and tip pinpointing to detect weapons and other metal objects with extreme accuracy. From U.S. airports to sporting events, the SuperWand is the hand-held of choice for today's security screener. Accurate detection of all ferrous, non-ferrous and stainless steel and other metallic objects. Elongated profile offers 360° detection coverage plus tip pinpointing for easy scanning from head to foot. Easy and convenient to use with one-touch button and three-color LED lights. Clear audible or silent / vibrate LED alarm signal. Large 9.5" scan area allows thorough scanning with minimum passes. Ergonomically designed grip fits comfortably in virtually every hand. 9V battery incl.

#### Warranty:

2 Years on Pulse Oximeter1 Year on Internal Battery90 Days on Fiber Optic Cords & Other Components

The Nonin 7500FO Pulse Oximeter incorporates a Fiber Optic sensor, meeting the unique needs of MRI users for patient safety and image quality.

Product highlights include:

 $\label{eq:safe-to-use} \begin{array}{l} \mbox{Safe-to-use} \ - \ \mbox{Fiber optic sensors eliminate the possibility of RF burns in the MRI environment} \end{array}$ 

Convenient - Non-magnetic pole mount system for easy access Economical - Long-life internal rechargeable battery system and light-weight design

Customizable - pulse tone with variable pitch; audible and visual alarms for pulse rate & SpO2

Expandable - Optional 18 hour memory for software review of SpO2 & pulse rate

Flexible - Multiple interface & printing options

Pole Mount - Fits poles with 5/8" to 1 1/2" Diameter Poles sold separately below.

# Fiber Optic Sensors must be ordered separately, they are not included with the pulse oximeter.

# Positioning | MRI Imaging Aids

# **Comfort Pillow Positioners**

This innovative pillow was designed to gently elevate and support the head, thus relieving stress on the shoulders during diagnostic MRI and CT procedures where the patient's arms are held over head. Because it is constructed of high-density foam, the pillow provides excellent patient support. Two hand straps allow the patient to hold-on during the procedure, thus increasing their security. As a result of unique design, the patient's arms can be kept in a straight and more comfortable position for safe contrast injections.

# Patient Comfort System General 12 Piece Positioner Kit

The Patient Comfort System was developed over a 2-year period in close cooperation with leading imaging centers to maximize patient comfort as well as conform to the specific requirements for compatibility and safety. This viscoelastic material used for medical imaging has been specifically formulated to maximize patient comfort and maintain a thin form factor while optimizing the available free space for the patient when inside the MRI bore. These mattresses and positioners are compatible with existing tables and are designed to simply replace the current pads. The basic system consists of four rectangular mattress pads covered with advanced breathable space-age waterproof material which resists staining and makes cleaning easier. A knee wedge and neck roll are also included to maximize patient comfort. To increase safety, all pads have an anti-slip undersurface to keep the pads in place while patients are getting on and off the table.

FO-6001	Durable Pillow Support System, Fabric	\$1,200.00 set

# Positioning | MRI Imaging Aids

# **Pearltec Positioners**

The innovative patented Pearltec technology uses a combination of soft movable polystyrene pearls and inflatable air chambers to provide optimum fixation of the patient during MRI and CT studies in order to reduce motion artifacts.

#### Benefits:

Fewer repeated exams.

The soft movable polystyrene pearls along with flexible air chambers let the Pearltec products adapt to the individual patient. This gives optimum fixation of the patient, minimizes motion artifacts, improves image quality and reduces the number of exam repetitions. This makes the workflow significantly more efficient.

This product complies with the essential requirements of the relevant European health, safety and environmental protection legislation.

## **Genus Positioner**

The GeNUS product from Pearltec are available in both child and adult sizes and have been developed for knee examinations. The GeNUS was developed to aid in the orthopedic examinations of the knee.

Model	Description	Price
PO-4011	Adult GeNUS Positioner	\$1,840.75ea.
PO-4012	Child GeNUS Positioner	\$1,840.75 ea.

# **Pearltec Multipad Positioners**

The MULTIPAD range of products from Pearltec are positioning cushions that can be used anywhere because their size can be changed by simply increasing the volume of air with the hand pump. MULTIPADS are used to position the patient individually and comfortably during CT and MR examinations. This results in less patient movement thereby minimizing motion artifacts. The flexible MULTIPAD product family consisting of MULTIPAD Standard, MULTIPAD Plus and MULTIPAD Slim can be universally used, either alone or in combination during all examinations with head and extremity coils.

As a guideline, once the red indicator line appears on the Multipad, the customer needs to re-order positioners.

Model	Description	Price
PO-4000	Multipad Standard, 17 cm x 6 cm	\$546.40 pkg.
PO-4001	Multipad Plus, 17 cm x 11 cm	\$590.00 pkg.

# Artificial Sky Ceiling Tile Art and Decorative Wall Murals

How can you have a blue sky in a room with no windows? How can you make your ceilings and walls come to life? With Artificial Sky Ceiling Tile Art and Decorative Wall Murals The future of radiology departments is not only new imaging equipment, it is focused on becoming more patient-care oriented. A typical MRI or CT Scan can terrify the bravest souls and cause not only unnecessary stress, but delayed recovery times. A relaxed patient is more receptive, therefore they are more responsive to treatment.

Ceiling Art is scientifically proven to: Lower Blood Pressure, Reduce Stress/Anxiety, Decrease Muscle Tension, Reduce Pain, and Re-Direct Negative Thought.

## Laryngoscope

Introducing the first fiber-optic incubating laryngoscope set designed specifically for use within the MR room. Long Life - Laryngoscope handle developed from selected low-magnetic materials. Proprietary low-magnetic signature lithium battery delivers 4 times the useful life of a standard alkaline battery.

High Intensity - A 3.5V halogen lamp yields a high-intensity, fiber-optic delivered light beam. Compatible - Works with a broad range of Fiber-optic Laryngoscope Blades.

Warranty - 1 year

# Lights | MRI Procedures

# Mobile Light

39" heavy duty stainless steel dual joint arm, 50 watt head. Mounted on a 25" diameter base with five 2" casters, 14 lb. stainless steel weight added for stability and a 39" tall pole. Light has a 30 foot cord to transformer box (see warning below) 9.5 foot cord from transformer to wall outlet. Warranty: 3 years TRANSFORMER BOX IS REQUIRED TO OPERATE THE LIGHT

Model	Designation	Description	Price
EX-1000		Mobile Light with Power Box	\$3,219.23 ea.
EX-1013		Mobile Light w/o Power Box	\$1,909.62 ea.
EX-1004		Power Box	\$1,309.61 ea.
EX-1011	<u> </u>	Replacement Bulb for EX-1000	\$61.00 ea.

# Warning:

The installation guidelines must be strictly followed. The electrical box contains ferrous materials and must NEVER be placed close to the magnet. If the electrical box is moved closer to the magnet than the 100 gauss line, electromagnetic interference may be seen, to avoid this **NEVER** move the electrical box close to the magnet.

- NEVER operate the light while the electrical box is unsecured.
- The lamp may slightly vibrate

For Ultrasound, Mammography, X-Ray and MRI use.

12cm x 10cm x 9cm (4.7" x 4" x 3.5")

Weight: .4kg(1 lb)

Includes Multi-Modality Breast Biopsy and Sonographic Trainer Phantom, user guide and 6-month warranty

Model	Description	Price
PH-1020	Breast Biopsy and Sonographic Trainer	\$675.00 ea.

## Are your current MRI supplies certified?

MRIequip.com proudly introduces the first of its kind non-ferromagnetic MRI certified biopsy tray to include both a scalpel and needle. The first biopsy tray significantly reduces your fine institution of liability, when used in the prescribed fashion. Please call for MRI certification for future purchases. Thanks to your radiology family, larger production runs have lowered the price to \$399.00 for a case of 10 trays. That's just \$39.90 per tray.

## MRI Non-Ferromagnetic "Certified" Biopsy Tray

Featuring a Non-Ferromagnetic Scalpel and Non-Ferromagnetic Needle

SAFETY: MRIequip.com is committed to bring to you the only MRI Non-Ferromagnetic Certified Biopsy Tray. Designed and certified within the guidelines of the new ASTM standards in effect so your facility no longer has to assume the liability for any safety accidents due to items made with ferrous materials.

USAGE FLEXIBILITY WITH LESS WASTE: Based on customer feedback for increased ordering and procedure flexibility you'll note that we packaged the main biopsy components separately as well as in a MRI biopsy tray. Trays can also be used as a MRI localization tray.

UNIQUE DESIGN: MRIequip.com offers the only MRI Non-Ferromagnetic certified disposable scalpel and MRI Non-Ferromagnetic certified needle. COST EFFECTIVE: This product is a first of its kind. Developed by technologists who perform the procedures. It is cost effective, practical and safe to use. The trays are completely sterile and disposable.

#### MR Conditional to: 3-Tesla

The trays have a 2 year expiration date.

#### Tray Contents:

- 1 5cc syringe luer lock
- 2 10cc syringe luer lock
- 1 20cc syringe luer lock
- 1 20 gauge non-ferromagnetic 1 Alcohol prep
- injection needle 9cm
- #11 blade non-ferromagnetic 1 4oz specimen cup 1 scalpel with plastic handle
- plastic forcep fine tip 1
- 6 4 x 4's 12 ply
- 2 2 x 2's 12ply
- 1 ChloraPrep® 3ml

- 1 Betadine swabs (pkg 3)
- 1 sterile pen with ruler (to write on labels)
- 1 sheet pre-labeled JCAHO required labels
- 1 Steri-strip 1/2 x 4 inch (3 per card)
- 1 towel 17 x 20 white
- 1 prep tray 10 x 5 x 2
- 1 outer tray wrap 30 x 30

Model	Description	Price

## Accu-Draw IV Clamp

MRI ACCU-DRAW<sup>™</sup> provides one-handed access to non-sterile vials while maintaining sterility. ACCU-DRAW keeps vial labels visible at all times, and angles vials so they can be completely emptied. Made of brass, plastic, and aluminum. How it Works: The durable plastic holder accommodates two single-dose and three multi-dose vials at a time. Clamps onto any table surface. Vials that run out can be replaced with fresh ones at any time during the procedure. You'll know vials are secure because they click and lock into place. Holds vials at the perfect angle, allowing complete emptying and reducing medication waste.

Model	Description	Price
FO-1117	Accu-Draw IV Clamp	\$343.08 ea.

## MRI Non-Ferromagnetic 3 Gal. Sharps Container

Has a dual-purpose lid, which allows the container to remain open for code situations or in a free-fall position for normal, one-handed operation. Lid features a needle key for safe removal of needles when necessary. Safely stands on table top or cart.

## MRI Non-Ferromagnetic 2 Gal. Sharps Container

Provides open access for disposal of a variety of shapes and sizes of sharps, (i.e. needles and syringes, vials, test tubes and glass slides). Lid features a needle key for safe removal of needles when necessary. Can be wall mounted or safely stands on table top or cart.

The rotating lid automatically drops needles and syringes in a horizontal position to maximize capacity. Lid remains closed when not in use. A built-in needle key permits the safe removal of needles when necessary. Units lock onto a wall bracket and are removed with a master bracket key.

Replace multiple costly coils with one DuoFLEX® Coil Suite. DuoFLEX® extends the life of your MRI equipment, increases productivity, and delivers a quantifiable ROI. You will measurably – and cost effectively – improve efficiency and the standard of care for your patients.

#### Technologists FREE YOUR IMAGINATION

Spend less time between scans replacing and preparing different surface coils and produce more high-quality, diagnostic images. The DuoFLEX® Coil Suite is flexible enough to scan any body part without causing patient discomfort. If you can imagine it, you can scan it.

# Radiologists SEE THE DIFFERENCE

Deliver definitive diagnosis on sub-optimal anatomy and hard-to-scan patients. The DuoFLEX® Coil Suite acquires the quality images you need time after time, without compromise.

## 3 Mode Continuous Vacuum Suction Regulator

It's Field Serviceable ... The unique modular design makes repair a breeze for any biomed or central supply department. The unit is made up of six (6) easyto-replace modular components.

It's Compact ... As a result of its modular design, the unit is 25-50% smaller than other suction regulators making it the product of choice for crowded wall and rail areas.

It's Sturdy ... The case is made of strong ABS plastic. It features a smooth surface with rounded corners making cleaning easy. The case also houses the gauge for extra protection.

It's User-Friendly ... The large control knob and easy-to-read settings make vacuum adjustments simple, even in emergency situations.

#### Specifications:

## Ventilators | MRI Respiratory

## MRI Non-Magnetic Emergency and Transport Ventilator

The emergency ventilator is designed for caregivers wherever breathing failure emergencies occur: in hospitals, industrial or commercial setting, transport situations, or remote locations. The unit's simplicity, portability, and safety make it the ideal choice for emergency ventilation. A single control for setting the frequency and tidal volume, including a click-stop setting at the recommended adult position, enables rapid set-up in demanding circumstances. Auto/manual controls, a patient demand system, MRI compatibility, and other features provide the means to manage respiratory emergencies.

## **Technical Specifications:**

#### Principle of Operation:

Oxygen powered, hand-held control unit with patient valve including automatic and manual modes with demand breathing

#### Manual Mode:

Preset breaths, singly or in a controlled breathing pattern may be selected by use of a push-button or omni-directional lever

#### Automatic Mode:

The ventilatory resuscitator cycles in accordance with the setting of a single control that changes the tidal volume and frequency dependently with a constant I:E ratio of 1:2

#### Patient Type:

Patients above 10kg with and without spontaneous breathing

#### Demand: Included

#### Control:

Single, calibrated, tidal volume/frequency control gives simultaneous and interdependent adjustment of tidal volume and frequency

#### Tidal Volume and Frequency:

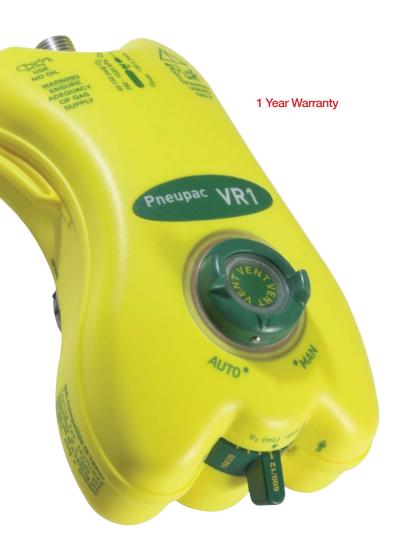

150 ml/25 bpm 300 ml/20 bpm 450 ml/15 bpm 600 ml/12 bpm (detent) 750 ml/11 bpm 900 ml/10 bpm 1050 ml/10 bpm

Flow Range: 11-32 L/min

Description

## MRI Non-Magnetic VentiPac with Integrated Alarms

Designed specifically for use by respiratory therapists, paramedics, and trained emergency personnel. VentiPac enables greater control of breathing parameters. The dual controls allow easy selection of tidal volume and frequency to match your patient's ventilatory requirements. Suitable for ventilation during emergency or controlled transportation of adults, children and infants. MRI compatibility gives maximum flexibility for transport within the hospital.

#### Product Features

Separate controls for inspiratory time expiratory time & flow Unique CMV/Demand - Demand feature Patented mode of operation Adjustable pressure relief with audible alarm Air mix facility Optional PEEP facility Integrated pressure monitoring/alarm system MRI compatible up to 3 Tesla Low gas supply indicator Pneumatically powered Lightweight and durable

1 Year Warranty

## MRI Non-Magnetic ParaPac with Integrated Alarms

Designed specifically for use by respiratory therapists, paramedics, and trained emergency personnel. ParaPac enables greater control of breathing parameters. The dual controls allow easy selection of tidal volume and frequency to match your patient's ventilatory requirements. Suitable for ventilation during emergency or controlled transportation of adults, children and infants. MRI compatibility gives maximum flexibility for transport within the hospital.

VE-4003 MRI Non-Magnetic ParaPac \$9,370.70 ea. with Integrated Alarms

#### **Product Features**

Separate controls for tidal volume and frequency Unique CMV/Demand - Demand feature Patented mode of operation Adjustable pressure relief with audible alarm Air mix facility Optional PEEP facility Integrated pressure monitoring/alarm system MRI compatible up to 3 Tesla Low gas supply indicator Pneumatically powered Lightweight and durable **1 Year Warranty** 

## MRI Non-Magnetic BabyPac with Integrated Alarms

BabyPac is specially designed to deliver ventilation to small, fragile lungs of patients ranging from neonates through pediatrics up to 20kg with precision and confidence. It has a sophisticated range of ventilation controls including CPAP, variable I:E ratio and variable oxygen concentration. The latter is particularly important in neonatal intensive care and transport since high oxygen concentrations over a prolonged period can be harmful. Baby Vent also incorporates a comprehensive range of alarms.

#### Product Features

Unique variable oxygen concentration gas mixing system Inspiratory pressure control Separate controls for inspiratory and expiratory time Four operating modes PEEP/CPAP control Adjustable pneumatic pressure relief with audible alarm Integrated pressure monitoring/alarm system MRI compatible up to 3 Tesla Low gas supply indicators for O2 and air Complete pneumatic operation Lightweight and durable

1 Year Warranty

# Fire Extinguisher | MRI Safety

STRUCTIONS

## De-Ionized Water Fire Extinguisher

The ultimate extinguisher for class A fires, especially where a potential Class C (electrical) hazard exists. The fine spray from the unique misting nozzle provides safety from electrical shock, greatly enhances the cooling and soaking characteristics of the agent and reduces scattering of the burning materials. Unequivocally the best extinguisher for hospital environments, telecommunications facilities and "clean room" manufacturing facilities.

#### **User Friendly:**

Wand provides greatest operator safety Maximum visibility during discharge No electrical conductivity back to the operator No thermal or static shock Minimal training - simplest to use, least expensive agent available Clean: No toxicity

No respiratory concerns De-ionized water extinguishing agent Exclusive crevice free, butt welded cylinder Antiseptic white paint finish (easy to clean interior & exterior) No powder residue

Specifications:	FE-1004	FE-1000

# MRI Safety | Fire Extinguishers

## **Pre-Filled Fire Extinguisher**

The Model FE-2000 fire extinguisher is designed to be the ideal fire extinguisher for hazard areas that require a reliable and safe non-magnetic fire extinguisher. The agent is proven to be electrically non-conductive (will not damage sensitive electrical equipment like computers), leaves no residue, and requires no clean-up. The agent has no ozone depletion potential and is lower in toxicity compared to comparable extinguishing agents. The UL/ULC approved fire extinguisher is completely non-magnetic stainless steel shell and non-magnetic valve, hose and nozzle. The unit was tested by Magnetic Resonance Safety Testing Services and shown to be non-magnetic to 3.0 Tesla. The extinguisher can safely be mounted within the MRI room.

#### Features

Pre-Filled for A, B and C fires No Clean Up - No Residue Non-Magnetic (tested up to 3 Tesla) Safe for sensitive electronic equipment Safe for exposure to occupants Zero ozone depletion Six-year limited warranty from date of delivery to original end-user purchaser FAA approved Rechargeable UL/ULC Listed Meets or exceeds requirements of ANSI/UL 2129 and 711 Temperature range is -40°F to 120°F (-40°C to 49°C) Mounting bracket included MSDS included in shipment

## SuperWand

The SuperWand's exclusive 360° detection field provides uniform sensitivity and tip pinpointing to detect weapons and other metal objects with extreme accuracy. From U.S. airports to sporting events, the SuperWand is the hand-held of choice for today's security screener. Accurate detection of all ferrous, non-ferrous and stainless steel and other metallic objects. Elongated profile offers 360° detection coverage plus tip pinpointing for easy scanning from head to foot. Easy and convenient to use with one-touch button and three-color LED lights. Clear audible or silent / vibrate LED alarm signal. Large 9.5" scan area allows thorough scanning with minimum passes. Ergonomically designed grip fits comfortably in virtually every hand. 9V battery incl.

Model	Description	Price
MG-4000	SuperWand	\$199.00 ea.
MG-4001	SuperWand Holster	\$25.00 ea.

## **Screening Magnet**

Powerful Rare-Earth Handheld Magnet for Magnetic Resonance Screening/Sites: Magnetic Resonance (MR) professionals must be able to screen patients, devices, and implants for possible ferromagnetic properties prior to allowing them to enter clinical and research magnetic resonance imaging (MRI) environments and magnet rooms (so-called, "Zone III and IV" regions). It has also been proposed that all MR sites have ready access to powerful, more than 1,000 gauss hand held magnets that they can use for such testing purposes. This magnet has been specially designed by experienced clinical and research MR practitioners and leaders in the field of MR safety to meet the needs of busy MR sites. The more than 1,200 gauss magnetic field of the magnet exerts a sufficiently powerful magnetic field to sensitively test even weakly ferromagnetic objects. The magnet itself is also composed of a neodymium - a so-called rare earth magnet - that permits it to lose its strength extremely slowly, at a rate of a 1% loss every 100 years. The recessed magnet in a custom foam-fitted housing, the form fitted handle, and the surface ball bearing mounts allow for ready removal of the magnet - by anyone - should it become inadvertently attached to large ferromagnetic objects, such as oxygen tanks, wheelchairs, etc. The bright red anodized coloring of the magnet housing contrasts well with the silver labeling clearly stating that the magnet is not MR safe and should not be brought into the MR magnet room/ Zone IV regions. This magnet was developed in part with the help of Dr. Emanuel Kanal, Department of Radiology, University of Pittsburgh Medical School, and is field tested to provide years of reliable MR safety and compatibility testing under typical clinical and research MRI settings. Also optionally available is a foam padded carrying and storage case to protect the magnet between uses.

#### Specifications:

Weight: 2 lbs Color: Red, Silver lettering Magnetic Field Strength: 1,200 gauss Dimensions: 3 1/2" height x 3" width x 5 1/2" length

Model	Designation	Description	Price

## GaussAlert Magnetic Field Strength Alarm System

GaussAlert is designed to help keep MR Conditional equipment outside of the MRI exclusion zone. GaussAlert is programmed to alarm when the preset magnetic field strength is exceeded. It produces an attention-getting audio alarm when MR conditional equipment is too close to the MRI magnet. GaussAlert can also be useful as an alert for MR unsafe equipment, such as a crash cart or an emergency resuscitator, which can be kept near, but should not be taken into the MRI magnet room.

#### See web site for more information.

Model	Description	Price
MG-2504	10 Gauss Threshold	\$1,000.00 ea.
MG-2505	30 Gauss Threshold	\$1,000.00 ea.
MG-2506	100 Gauss Threshold	\$1,000.00 ea.

The PD240C is a Hand Held Metal Detector that combines high reliability and ergonomics with advanced detection and operator signaling features. Deep penetration for weapons and minimum metal targets, effective sensitivity to all alloys, exceeding the latest Security Standards and high immunity to external metal masses are among the main peculiarities of this new device.

#### Features:

Programmable Sensitivity Long Detection Range Extended Continuous Operation Time Automatic Low Power Mode during Screening Pauses Embedded Long Life Rechargeable Batteries Embedded Fast and Reliable Battery Charger: no need of batteries removal Dedicated Holder acts as Minimum Space Table Stand Operator Functions can be customized by the user through PC GUI and USB

Model	Description	Price
MG-6000	MRI Hand Held Metal Detector	\$5,000.00 ea.

## Aegys Techgate MRI Signage System

TechGate allows technologists to focus on the care of patients and efficient room turnaround rather than worrying about anyone entering the MRI room behind them. Easy to use and designed for the MRI environment, TechGate is deployed via push button remote control, providing an immediate physical restriction of access to all unauthorized individuals.

Every day at hospitals and health care facilities around the world, the safety of patients, technologists and medical personnel is put in danger when an MRI environment is accidentally violated by a seemingly innocent intrusion while a procedure is in progress. When MRI warning signs fail, patients and technologists risk physical harm, while priceless equipment is jeopardized for damage or destruction by someone who unknowingly enters an unsecured or open MRI door. There is now a simple and effective way to diminish that risk: TechGate.

Model	Description	Price
MG-6001	Techgate MRI Signage System	\$14,000.00 ea.

MODE

## Ferromagnetic Detection System MRI Entry System

FerrAlert<sup>™</sup> HALO II - Ferromagnetic Detector complies with ACR and JCAHO standards to protect the magnet room against moderate to large size ferromagnetic projectiles. This product significantly helps to protect the investment in the magnet and to avoid a catastrophic accident. FerrAlert<sup>™</sup> HALO II ENTRY has been certified by Siemens Medical Solutions for installation and use inside the magnet room for both 1.5T and 3.0T MRI magnets. Plus System reduces alarm fatigue by sensing direction of personnel and accepts Ferromagnetic Incident Log Manager (F.I.L.M.)

#### **OPERATION:**

- The Green LED HALO array illuminated around the MRI entrance indicates that the detector is scanning and there are no ferromagnetic threats detected.
- A Yellow beacon light indicates that a threat is approaching the portal.
- The Red LED HALO array flashes the entire portal, indicating a major threat such as a ventilator or oxygen cylinder has approached the portal.
- The greater the threat, the further away the warning is activated.

#### SPECIFICATIONS:

- Dimensions: Height 83" (211cm), Depth 2.25" (5.7cm)
- Adjustable Width: 42" (107cm) to 52" (132cm) Inside; 47" (119cm) to 57" (145cm) Outside
- Complies with ES60601-1-8 International Standards for Medical Device Alarms
- Complies with IEC 60101-1:2005 Medical Device Specifications Requirements
- Medical Power Supply: 100 to 240 VAC, 47 to 63 HZ, 42 Watts
- Sensitivity: Adjustable
- Audio Alarm: In Portal
- Photoelectric Beam: Activates Alarm Function mode when moving object enters Portal

## 2017 Reference Manual for Magnetic Resonance Safety, Implants, and Devices

#### Reference Manual for Magnetic Resonance Safety, Implants, and Devices

2017 Edition (Frank G. Shellock, Ph.D.) The internationally acclaimed series continues to be the most indispensable MRI safety textbook for radiologists, MRI technologists, and facility managers. This textbook includes fully updated guidelines and recommendations from the latest information in the peer-reviewed literature as well as documents developed by the International Society for Magnetic Resonance in Medicine (ISMRM), the American College of Radiology (ACR), the Food and Drug Administration (FDA), the National Electrical Manufacturers Association (NEMA), the International Electrotechnical Commission (IEC), the Medical Devices Agency (MDA), and the Institute for Magnetic Resonance, Safety, Education and Research (IMRSER). "The List" contains tabulated data for thousands of objects, including products tested at 3-Tesla.

#### Features:

The 2017 Edition includes patient screening forms in English and Spanish and guidelines for scanning patients with electronically-activated devices.

Model	Description	Price

## MRI Safety for Non-Professionals DVD

The program "MRI Safety for Non-Professionals" features Dr. Frank Shellock, who is the founder of the Institute for Magnetic Resonance Safety, Education and Research and President of MR Safety Testing Services. This program is intended to educate individuals who may need to enter the MRI environment on a periodic or limited basis, or in a response to an emergency. These individuals may include office workers, custodial staff, transportation personnel, nurses, anesthesiologists, security officers, firefighters, site maintenance workers, patient relatives, visitors and others.

#### Uses

Hospitals **Nursing Homes** Medical Offices Veterinary Clinics

## MRI Maintenance | Janitorial

#### MRI Non-Magnetic Cloud Duster Hand Wand

The Cloud Duster Hand Wand is great for cleaning home, car and any place dust collects. The Cloud Duster Hand Wand uses unique micro fibers that have millions of long-strand hooks and channels resulting in increased surface area to attract and hold more dust than disposable sheets and standard cotton dust mops. And unlike cotton dusters, there's absolutely no need for dust treatments or chemicals of any kind on the Cloud Duster Hand Wand.

Model	Description	Price
<b>MT-4700</b>	MRI Non-Magnetic Cloud Duster Hand Wand w/ Case of 6 Pads	\$90.25 cs.
<b>MT</b> -4701	MRI Hand Wand Duster Replacement Pads (6 per case)	\$53.00 cs.

#### Non Magnetic Non Sparking Toolkits

Our Non-Magnetic MRI toolkits are tested and meet the requirements by the US government for Non-Magnetic Hand tools. The MRI toolkits are for use in 3T magnets and below, so they are deemed MR Conditional. This enables the non-magnetic tools to be used near sensitive equipment. Waterproof Case 5" Deep is injection molded and utilizes ultra high-strength polypropylene copolymer resin. Features a gasketed, water-tight and dust-tight, submersible design that is resistant to UV, solvents, corrosion, fungus and impact damage. It also features a molded-in hinge, patent pending trigger release latch system, a comfortable snap-down rubber over-molded cushion grip handle, and an automatic ambient pressure equalization valve.

TL-1981	<u>AR</u>	28 Piece, Non Magnetic Non Sparking Corrosion Resistant Toolkit - Metric	\$1,749.17 kit

#### **Breast Shield**

Today, CT Scans play a critical role in the diagnosis and management of most patients with complex thoracic and cardiopulmonary diseases. As the use of CT imaging increases, however, so does the risk for latent carcinogenic effects of ionizing radiation on radiosensitive tissue including the female breast. The recently redesigned AttenuRad Breast Shield System consists of a thin (1 mm) piece of bismuth impregnated synthetic rubber covering that mounts firmly on an offset quarter inch foam base. The breast shield system offers up to a 57% reduction of radiation exposure during a CT scan without significant changes in image quality, including artifacts and beam hardening effects. The single-piece AttenuRad CT Breast Shield is designed for multiple uses.

Model	Description	Price
MO-3002-MD	Medium Breast Shield	\$89.45 ea.
MO-3002-LG	Large Breast Shield	\$89.45 ea.

#### Adult Breast Shield Covers - Case of 10 Fits both MO-3002-MD & MO-3002-LG.

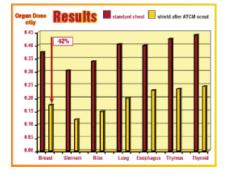

Fits both MO-3002-MD & MO-3002-LG.

Plastic, Latex Free Covers comes in a Package of 10 Introducing MRIequip.coms' new disposable covering for the Adult Breast Shield System. The new plastic covering is cost-effective alternative to the single-use Adult Breast Shield, reducing the risk of contamination while still providing an artifact and streak-free image.

2 ml thick

Model	Description	Price
MO-3014	Breast Shield Covers (10 per case)	\$20.00 cs.

#### **CT Breast Shield System**

Studies have indicated that infants and children are as much as 10 times more susceptible to carcinogenesis from radiation than adults. Breast tissue exposed to radiation from CT procedures involving the chest or abdomen is an area of particular concern for young females. The CT Breast Shield System provides significant in-plane breast shielding (57%) for pediatric MDCT, without qualitative or quantitative changes in the CT image. The use of the system's offset foam base gives the shields additional substance and durability, making them easy to use. The use of the elevating foam also decreases the patient's exposure to scattered radiation.

Model	Description	Price
MO-3010	Neonatal (Box of 10)	\$121.05 box
MO-3011	1 Year Old (Box of 8)	\$121.05 box
MO-3012	5 Year Old (Box of 6)	\$121.05 box
MO-3013	10 Year Old (Box of 4)	\$121.05 box

#### Thyroid Shields - Case of 10

Positioned over the Adam's Apple, the AttenuRad CT Thyroid shield is designed to provide maximum protection to the radio sensitive thyroid gland. To ensure tight positioning, a curved notch in the center of the shield is placed around the Adam's Apple and an adhesive backing holds the shield firm as the patient breathes and swallows. The AttenuRad CT Thyroid shield, when used for the soft tissues of the neck, is cut to a thickness of 1 mm allowing for a 60% dose savings to the Thyroid.

Model	Description	Price
MO-3001	Thyroid Shield (10 per case)	\$111.90 cs.

#### Eye Shields - Case of 20

The lens of the eye is sensitive to radiation during routine Cranial CT. Patient undergoing routine CT scans of the head are especially vulnerable to complications. The AttenuRad CT Eye Shield is a single-piece bismuth impregnated synthetic rubber covering designed to provide significant protection. The shield molds over the patients nasal bridge with the shielding portions laying flat over the patients closed eyes. Adhesive material ensures a tight seal with minimal air gaps. This shield is cut to a thickness of 1 mm, allowing for 50% dose savings to the eye lens. The AttenuRan CT eye shield, which can be used both for adults and pediatrics, is intended to be a single use product because of potential biological contamination.

Model	Description	Price
MO-3000	Eye Shield (20 per case)	\$111.90 cs.
