MRI Signs and Stickers are a necessary part of your MRI Environment. We want to show you all the MRI Signs and Stickers that make your MRI environment safe.

**MRI Signs and Stickers**

There is a vast line of MRI signs to select from. Many safety codes require specific signs or stickers and or a certain amount of them. We want to show you where you can find all of the necessary options to make your selections. We’re going to sort our selections by sticker styles, signs, lighted signs, & more. These signs are highly important due to the fact that entering a MRI environment with any magnetic metal can cause serious injury and possibly death.

**MRI Signs**

There are many different MRI safety signs that cover a variety of different warnings and cautions. You may know the warning signs that you are looking for but the problem is finding them. [MRIequipand Ocelco](http://www.mriequipandocelco.com) has a wide variety of MRI safety Signs to view closer. They have great product images that enhance size so you can read every word.

**MRI Lighted Signs**
MRI Lighted Signs are necessary in certain facilities. This sign and many others light up while the Magnet is in use. MRI magnets actually never shut off unless there is an emergency. Lighted signs have a great duration and will rarely burn out.

**MRI Stickers**

Make sure that your entire MRI environment is properly labeled by adding stickers. This is a simple and cost effective way to make your MRI environment more prominent to make absolutely sure there are no accidents in or near the environment.

**Properly Labeling Your MRI Environment**

You need to properly label your MRI environment based off of your MRI unit. There are different styles of MRI’s that require different warnings. Proper labeling will also make your MRI unit have a more professional look.
